June Jovi Granados

Senior Software Engineer / Mobile & Cross-Platform

Bataan, Philippines | junejovigranados@gmail.com
Portfolio: jugranados.github.io | LinkedIn: linkedin.com/in/jjsgranados

SUMMARY

Senior Mobile Engineer with 12+ years building and modernizing Android and cross-platform apps (React Native, .NET MAUI, Xamarin). Owned core modules of GCash, the Philippines' largest e-wallet, and led a Xamarin-to-.NET MAUI migration at Ideagen(former Damstra Technology), an Australian software company.

CORE TECHNOLOGIES

Languages	Kotlin, Java, TypeScript, JavaScript, C#, Swift
Android & iOS	Jetpack Compose, Coroutines, RxJava, Android SDK, Swift, Xcode
Cross-Platform	React Native, .NET MAUI, Xamarin, Cordova
Web & Backend	React, Next.js, Node.js, REST APIs, SQL, MySQL, MongoDB
CI/CD & Quality	Bitrise, Fastlane, Azure DevOps, JUnit, Espresso
Tools	Git, Bitbucket, Jira, GitHub Copilot, Claude Code

WORK EXPERIENCE

DCPDC Inc. — **BGC Taguig**
Consultant Mobile Developer — **11/2025 - Present**

- Integrate AI-assisted engineering workflows using GitHub Copilot and other AI tooling for development, debugging, testing, review, and documentation.

Ideagen — **Clark, Pampanga**
Senior Mobile Engineer — **08/2021 - 10/2025**

- Maintained 5 production apps across React Native, .NET MAUI, Xamarin, Cordova, native Android and iOS.
- Led Xamarin-to-.NET MAUI migration, reusing existing business logic while progressively migrating presentation layers and resolving platform compatibility issues.
- Modernized a React Native application by upgrading dependencies, replacing deprecated libraries, and aligning Android/iOS platform requirements.
- Ran release pipelines and deployments to Google Play and the App Store, handled code reviews and production troubleshooting.

Mynt (Globe Fintech Innovations, Inc.) — **BGC, Metro Manila**
Android Developer — **11/2018 - 08/2021**

- Owned and maintained critical modules(Buy Load, Login, GCash KKB, etc.) for the GCash Android Application, serving 50M+ users, in a team of 7 engineers.
- Migrated legacy Java components to Kotlin [with Coroutines/RxJava] and a cleaner architecture, improving testability.

- Helped reduce Firebase-reported crashes to below 1% through production debugging and stability improvements.
- Mentored 2 developers and supported milestone planning.

ARKRAY Co. Ltd., Inc **Alabang, Muntinlupa**

Senior Mobile Engineer **04/2017 - 09/2018**

- Developed and maintained Android health-monitoring applications for diabetes and pet-health use cases.
- Designed a reusable chart-generation library for visualizing health data, replacing application-specific chart implementations and enabling reuse on 3 mobile applications.
- Supported localization and regional application requirements across different markets.
- Mentored junior developers and supported code quality and technical implementation.

Tagcash Ltd. **Makati, Metro Manila**

Android Developer **02/2016 - 03/2017**

- Owned and maintained Android application features including NFC transactions, beacon detection, and location-based functionality.
- Built NFC transactions, beacon detection and location-based features.

Imperium Technology **Makati, Metro Manila**

Systems Engineer **04/2014 - 01/2016**

- Architected web, backend, API, and Android applications using PHP, MySQL, MongoDB, Ruby, AngularJS, Node.js, and Java.
- Built server-side automation including CRON jobs and SMS services, and developed APIs supporting application integrations.
- Worked directly with clients from requirements gathering and technical planning through deployment, training, and ongoing support.

Polytechnic University of the Philippines **Mariveles, Bataan**

I.T. Professor **06/2013 - 03/2014**

- Taught programming and IT subjects, combining technical fundamentals with practical software-development exercises.

EDUCATION

Bachelor's Degree in Information Technology

Polytechnic University of the Philippines Bataan 2013

CERTIFICATIONS

A+ Practitioner For Mobile Android Domain

Ant Financial University of Technology 06/2019

Develop GenAI Apps with Gemini and Streamlit

Google 08/2026
